

2017 River Experience Rates (Page 1 of 4)

Our rates for river experiences vary from trip-to-trip because they are based on trip length and travel distance. Since these two factors are for the most part fixed regardless of the number of paddlers, they are the same whether there is one, two, or three paddlers in a group (with extra charges for four, five, six, seven, or eight paddlers). **We do not charge extra for any other services.**

All of our trips include (if desired or needed) for no extra charge:
